Department for  
Work and Pensions

This form is available in Welsh from [www.gov.uk](http://www.gov.uk) or by ringing **0845 600 3018**.  
Please complete this questionnaire in black or blue ink.

The Department for Work and Pensions needs you to fill in this questionnaire if you are making a claim for benefits or National Insurance credits on the basis of limited capability for work.

This questionnaire asks questions about your physical and mental health. Your answers will tell us how your illness or disability affects your ability to work. We need this information to decide if you can get benefits.

**Please send this questionnaire back by the date given in the enclosed letter.** If you send the questionnaire in late, use **page 17** to tell us why.

## How to fill in this questionnaire

### 1. Answer all the questions

Every question has instructions to take you step-by-step to the end of the questionnaire. You may wish to fill it in a bit at a time as it may take some time to complete.

Use the boxes after each question to tell us in your own words how your illness or disability affects how you do day-to-day things. Tell us if your ability to function varies over time. For example, over days, weeks, months or longer.

**If you need more space to answer any of the questions, please use the box on page 17, or use a separate piece of paper.**

### 2. Send us any medical information you want us to see

It is important that you give us as much information as possible as this helps us to deal with your claim.

If you have any medical information from your doctor, consultant or health care professional, or any other information which you wish us to see, please send us a copy with this questionnaire.

**You do not have to see your GP or health care professional to ask for a specially written report.** You may be charged if you do this.

## Help filling in this questionnaire or any part of it

You can ask a friend, relative or representative to help you, or get in touch with Jobcentre Plus. The person from Jobcentre Plus will go through the questions with you over the phone.

Sometimes they may be able to fill in the questionnaire for you. If they do this, they will send the questionnaire to you. You can then check it, sign it and send it back.

You can ask for a questionnaire in braille or large print. Or you can download the questionnaire to your computer and fill it in. Send it to the address on the envelope we have sent you.

Important information/advice about this form:

- This form is your signed statement of needs / problems - get help if you find the questions confusing or don't understand something on the form.
- From page 7 questions are numbered 1,2,3 etc. These headings are called 'descriptors'. Points can be awarded under each descriptor that applies to you depending on what level of difficulty you have with that task. You do not need to score points under each question.
- Part I Physical functions covers questions 1-10. If you only have mental health problems questions 11 onwards will be more relevant to you. e.g question 8 'getting around safely' in the physical section only wants to know about physical problems getting around. mental health issues with going out are covered under question 15 in part II 'going out'. You cannot get points on the physical questions for your mental health problem or for your physical problems on the mental health questions.

Important: The questions on this form do not relate exactly to the legal test. It is advisable to have the tests in front of you while you are filling in this form so you can see what information is actually required and what is relevant. see page 17 for more about this.

Variability: Most questions give the option to tick 'it varies'. Try to avoid this if possible. If you do choose 'it varies' you need to explain in the the box below what the pattern is ie how many days the problem is at a certain level. You need to be very clear about this explaining a normal weekly or monthly pattern. The only time you should tick 'it varies' is if none of the others apply but see below for what 'cannot' do a task means.

Ask yourself if one of the other options applies to you a lot of the time - decide which option applies to you more of the time than the other options. Once you have ticked that option you can explain any variation in the box below. This is better than just ticking 'it varies' 'cannot' do something means 'cannot safely, reliably and repeatedly do it most of the time'

## Face-to-face assessment

You do not have to give your phone number. either state 'in writing please', if you can't talk on the phone or you can give a support worker/carer's number if you ask them first

You may be asked to attend a face-to-face assessment with a qualified healthcare professional. Atos Healthcare would like to telephone you between 9.00am and 8.30pm on Monday to Friday, or between 9.00am and 5.00pm on Saturday to arrange a suitable date and time. To do this we need you to give us at least one up-to-date telephone number so that we can contact you.

this is good advice and applies to all questions

To answer **Yes** to any of the following questions, you must be able to do the activity safely, to an acceptable standard, as often as you need to and in a reasonable length of time.

By *mental, cognitive and intellectual functions* we mean things like mental illness, learning difficulties and the effects of head injuries or other brain or neurological conditions.

Use this space to tell us how you cope with danger. Please give us examples of problems you have with doing things safely.

'needing supervision' is not the same as having it. What is important here is whether you have reduced awareness of risk not whether you get help because you are at risk

## Part 2: Mental, cognitive and intellectual functions

If you can't do things in a logical order due to distraction/ confusion/lack of concentration - eg make up before washing or clothes on top of nightclothes make this very clear

## Part 2: Mental, cognitive and intellectual functions continued

### 17. Behaving appropriately

This section asks about whether your behaviour upsets other people.

#### How often do you behave in a way which upsets other people?

For example, this might be because you are aggressive or act in an unusual way.

- Every day
- Often
- Occasionally

it might be something you don't feel able to assess yourself - other people might be more aware of it than you. If other people upset you and you can't help reacting that counts as well. If you often misunderstand others but don't realise until it is too late explain how you have overreacted by giving examples.

Use this space to tell us why your behaviour upsets other people and how often this happens. Explain your problems, and give examples if you can. If it varies, tell us how.

## Part 3: Eating and drinking

### 18. Eating and drinking

**Can you get food and drink to your mouth without help or prompting from another person?**

**Can you chew and swallow food and drink without help or prompting from another person?**

- No
- Yes – now go to **Other information.**
- It varies

Use this space to tell us about how you eat and drink, and why you might need help.

It has to be a problem that you need help with 'most of the time' but if it is you should tick 'no' and not 'it varies'. This advice is the same for both these questions.

## Other information
