## WORKSHOP OPTIONS

*If you'd like to run a workshop at a future NAWRA conference, please contact [kelly@nawra.org.uk](mailto:kelly@nawra.org.uk)*

Workshops all run twice (once at 11.20am and again at 1.20pm) so please choose **two** of the following:

### A. The benefits of co-location

Tom Foster, Newcastle Welfare Rights Service

*Workshop level: Introductory / Practical / Strategic*

Tom will look at some of the co-located advice provision in Newcastle, and the benefits this brings to residents and other organisations.

### B. AI and the law: overview of opportunities and risks

Gareth Morgan, Ferret Information Systems and NAWRA rep for Wales

*Workshop level: TBC*

### **C. Child DLA mobility on grounds of 'severe mental impairment'**

Mark Perlic, Wolverhampton City Council Welfare Rights Service

*Workshop level: Introductory / Practical*

This provision is often misunderstood by both advisers and tribunals. This workshop by Mark Perlic from the City of Wolverhampton Council's Welfare Rights Service, seeks to underline the primary and secondary legislation which set out the qualifying criteria for the provision whilst, more importantly, also examining the case law views which have developed around the various different tests. Having an understanding of the 'correct legal line' that should be adopted in such cases is essential to save potential entitlements being missed. Those who are supporting families with disabled children, particularly those who exhibit behavioural problems, may benefit from attending.

#### **NAWRA workshop levels:**

<b>Introductory</b>	Assumes little or no prior knowledge of the topic or a refresher session
<b>Intermediate</b>	Assumes a reasonable working knowledge of welfare benefits work or some knowledge of the specific topic under discussion
<b>Advanced</b>	Assumes a good working knowledge of welfare benefits work or detailed knowledge of the topic under discussion

<b>Practical</b>	Focusing on developing good practice or offering some 'hints and tips'
<b>Theoretical</b>	Focusing on policy debates or discussion of emerging theory
<b>Strategic</b>	Focusing on planning and putting practical knowledge, and/or theory into practice
